

NEVADA VAX WATCH

A Nevada 501(c)(3) Nonprofit Organization

KINDNESS. CALMNESS. WISDOM.

Vaccine Decisions Are Personal.

Good decisions need room for honest questions, careful thought, and meaningful informed consent.

Nevada Vax Watch does not tell people what to decide. We are creating space for Nevadans to learn, listen, approach vaccine medicine with greater discernment, and care for those living with vaccine injury.

"I founded Nevada Vax Watch because no person affected by vaccine injury should feel invisible or alone. We are beginning locally - with conversation, compassion, and a commitment to find one another."
